

## Economics Summer Work

Your task:

Carry out some research into the current state of the UK economy.

Find out information about the level of:

- Unemployment
- Inflation
- Growth (GDP)
- Balance of Payments

in the UK economy.

For each of the above identify the following:

- What the current level is (this could be a % or a money value)
- What the trend has been over the past few years
- What is the impact of any of these changes on the UK economy

Finally, write a paragraph about how you feel the UK economy is performing at the moment.
